

# PROPOSED SCENARIO

## COMMUNITY ENGAGEMENT | PRESERVE DREAMLAND HISTORY | VACANT HERITAGE SITE | MEMORIES OF THE PAST

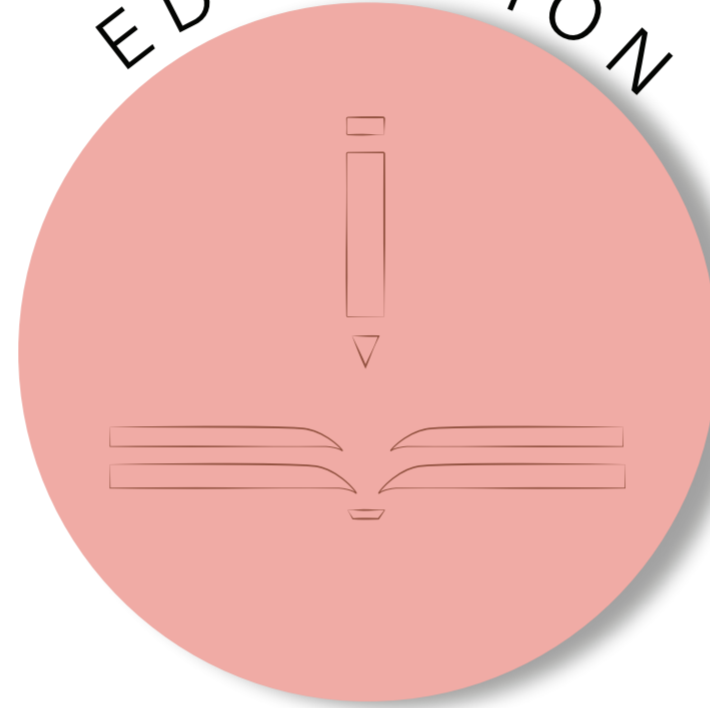

INTERACTIVE

The creativity aspect engages the younger generation in allowing their minds to express and imagine, through different activities which do not limit them to what they want to create. This will also further develop their communication skills resulting in higher communication amongst the local community.

An interactive experience within the space allows communication to unfold. Through using interactive furniture, it's an approach that makes it more fun for visitors and can either be for wider audience communication or adapted for private conversations, leaving the visitors open to interpretation.

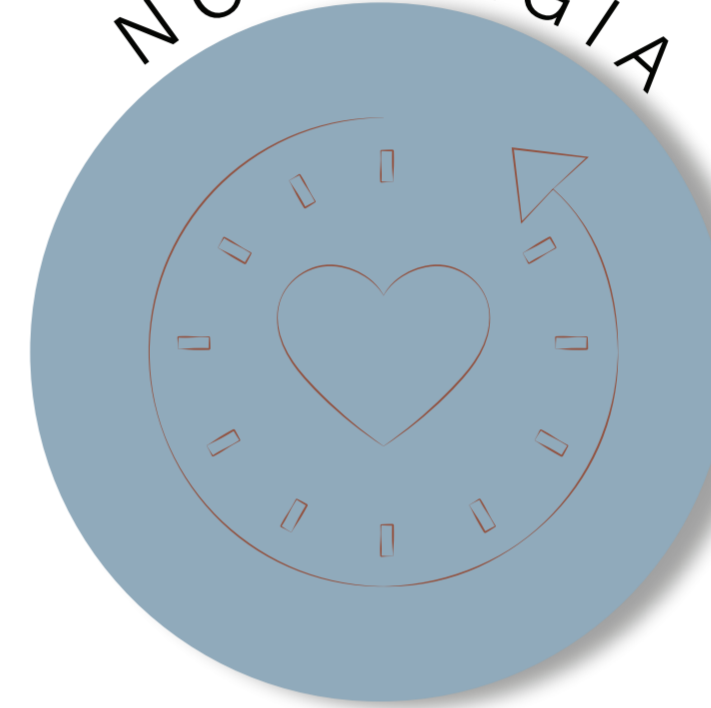

EDUCATION

Having a strong community bond in the local community of Margate is essential as my space is inclusive to all. I want the local community to feel a sense of belonging, whilst being able to engage in activities and share memories that Dreamland brings.

Having the chance to gain an education can broaden young minds allowing them to explore Dreamland at a broader spectrum. This can increase their awareness and understanding of the historical and cultural significance of Dreamland.

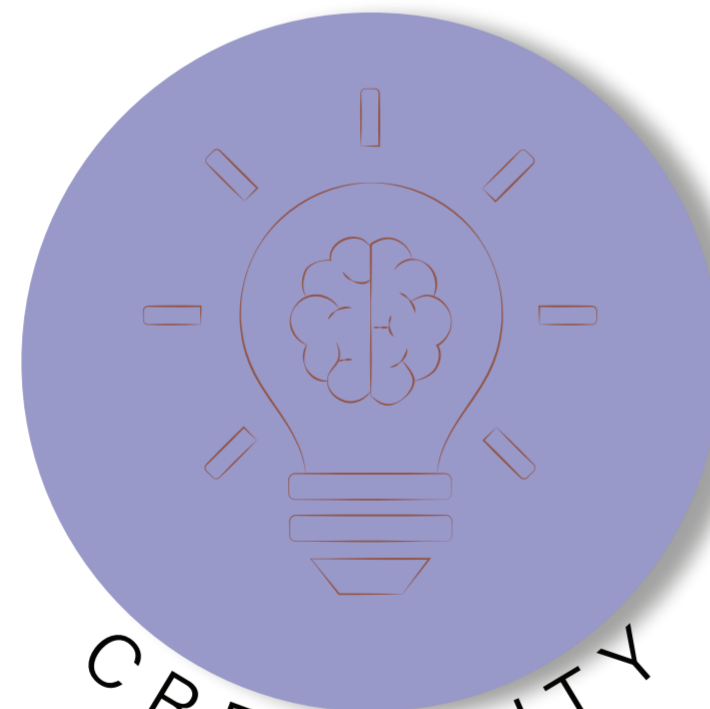

NOSTALGIA

As Dreamland has a deep history attached to it, it is essential to include the Dreamland archive. This makes it more accessible to the public, having the option to learn about the Dreamland history and the important timeline and events which is what makes Dreamland what it is today.

Specifically for the older generation, where former visitors of the park can reflect back on their memories. Happy emotions can be provoked through the telling of stories from Dreamland and help the younger generation understand what it was like.
