

G GLOBAL CULINARY HUB

GLOBAL CULINARY HUB

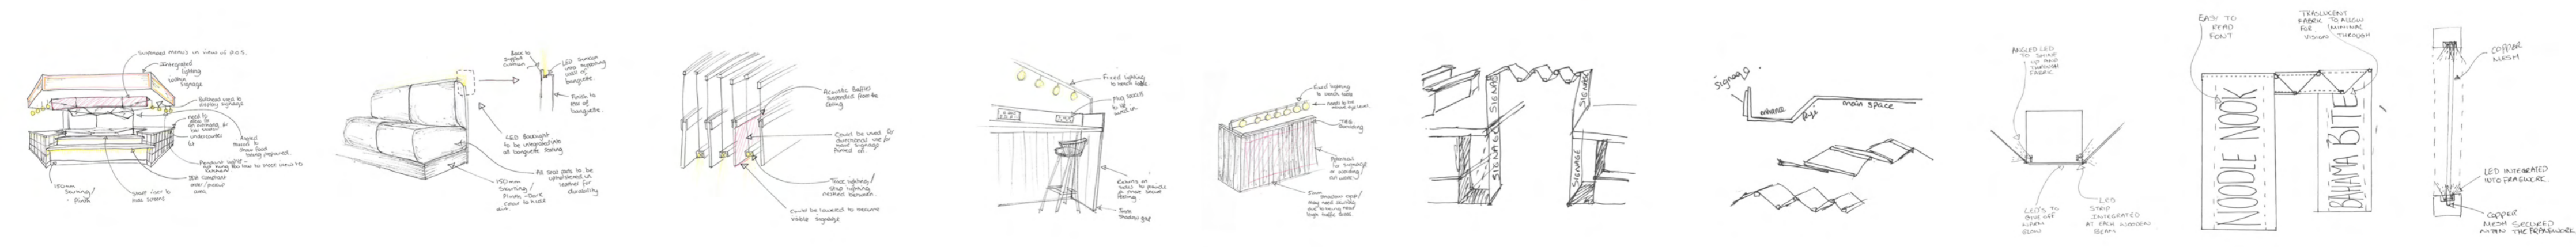

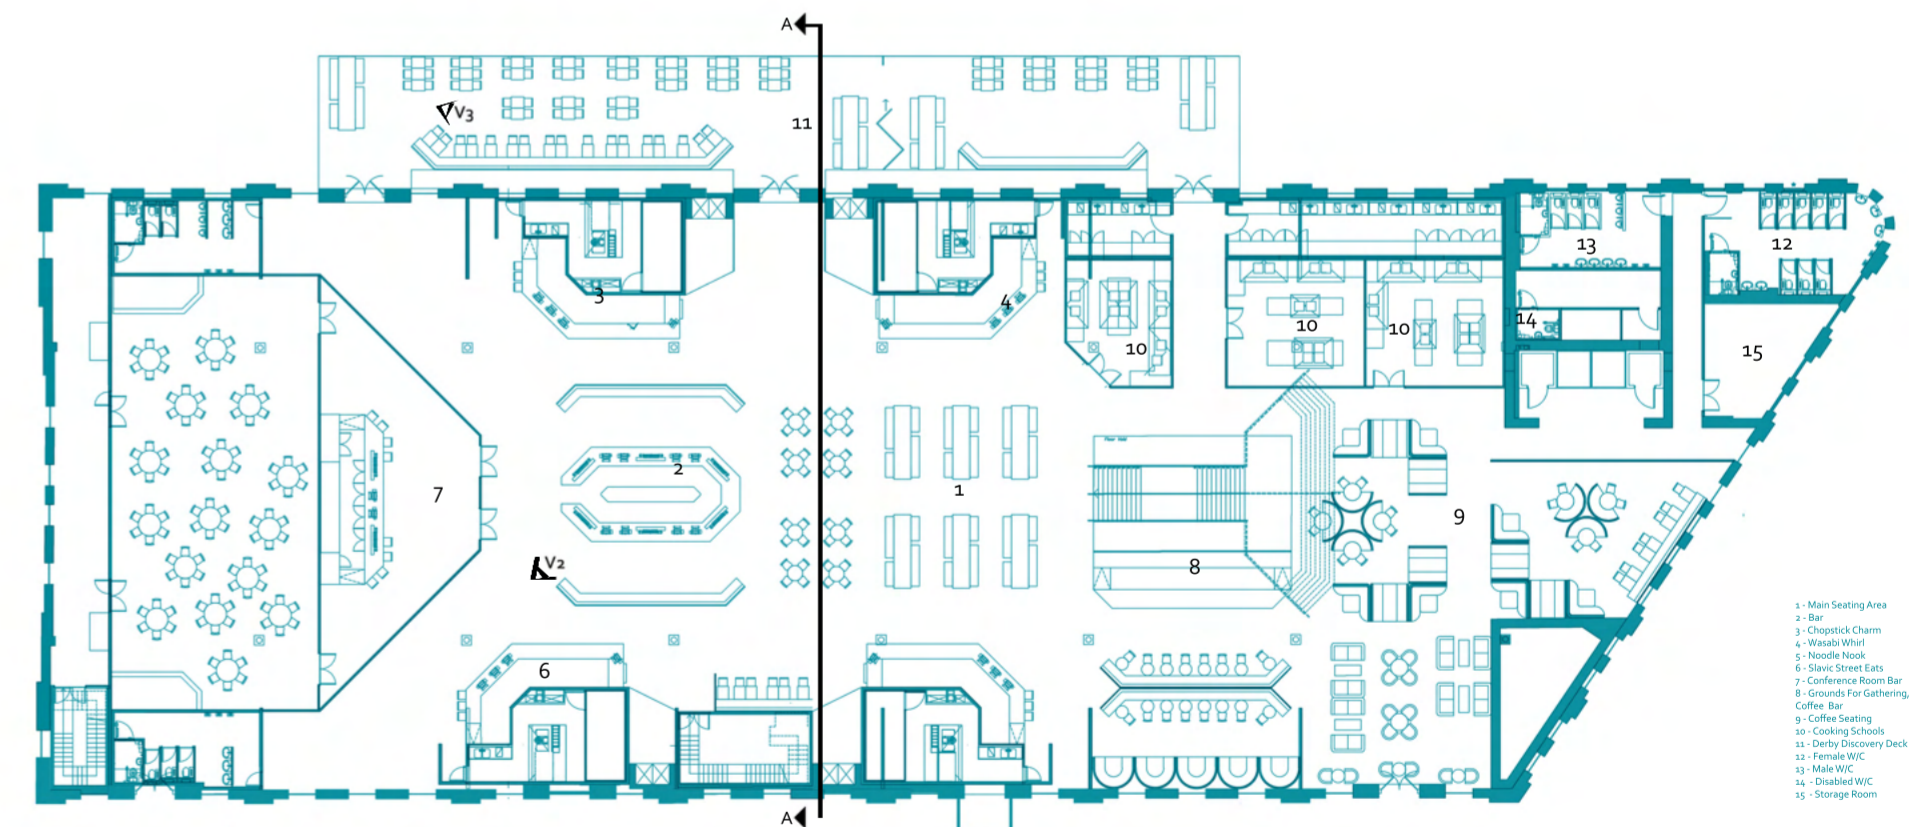

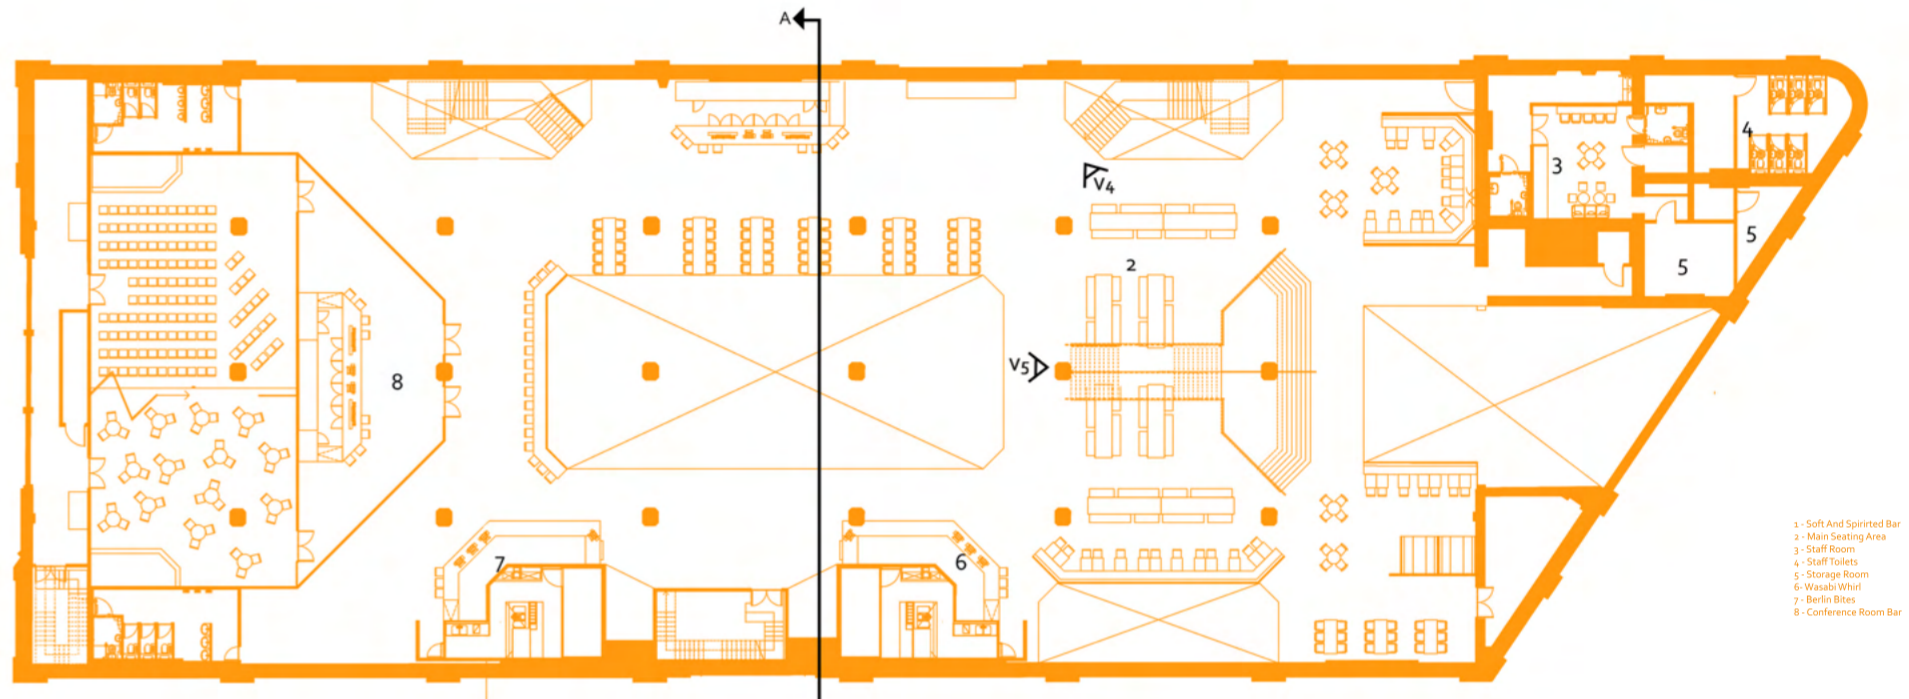

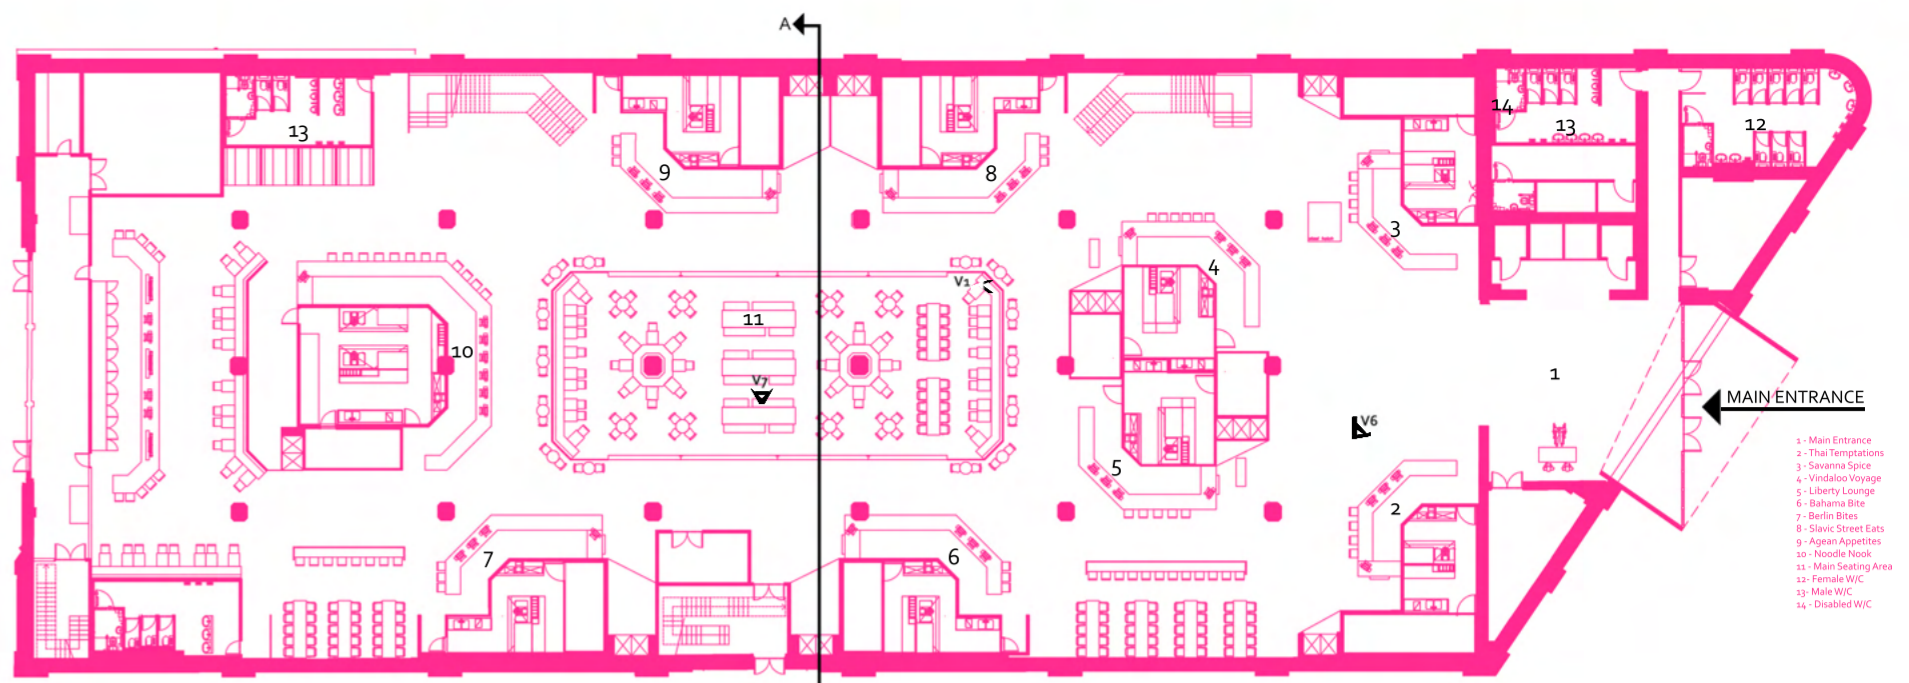

The Site:
Finn Gate Goods Yard, a Grade II Listed building in Derby, has long served the local community. Once a proud site, it is now abandoned and in disrepair, suffering from structural damage, fire, and vandalism.

The Problem:
Derby's growing multicultural population highlights the lack of spaces to foster community unity. Despite its rich diversity, many residents feel excluded, and the city's failure to win the 2025 City of Culture bid proves the need for more inclusive community spaces.

The Concept:
Transform the building into a vibrant food hall showcasing diverse culinary delights. This inclusive space will allow people to witness food preparation, enjoy authentic flavours, and participate in cooking classes, fostering cultural exchange. The food hall will also offer ingredients for purchase, encouraging culinary exploration at home. By celebrating diversity through food, the project aims to build connections, strengthen community spirit, and promote social justice in Derby.
