

HOMESICKNESS

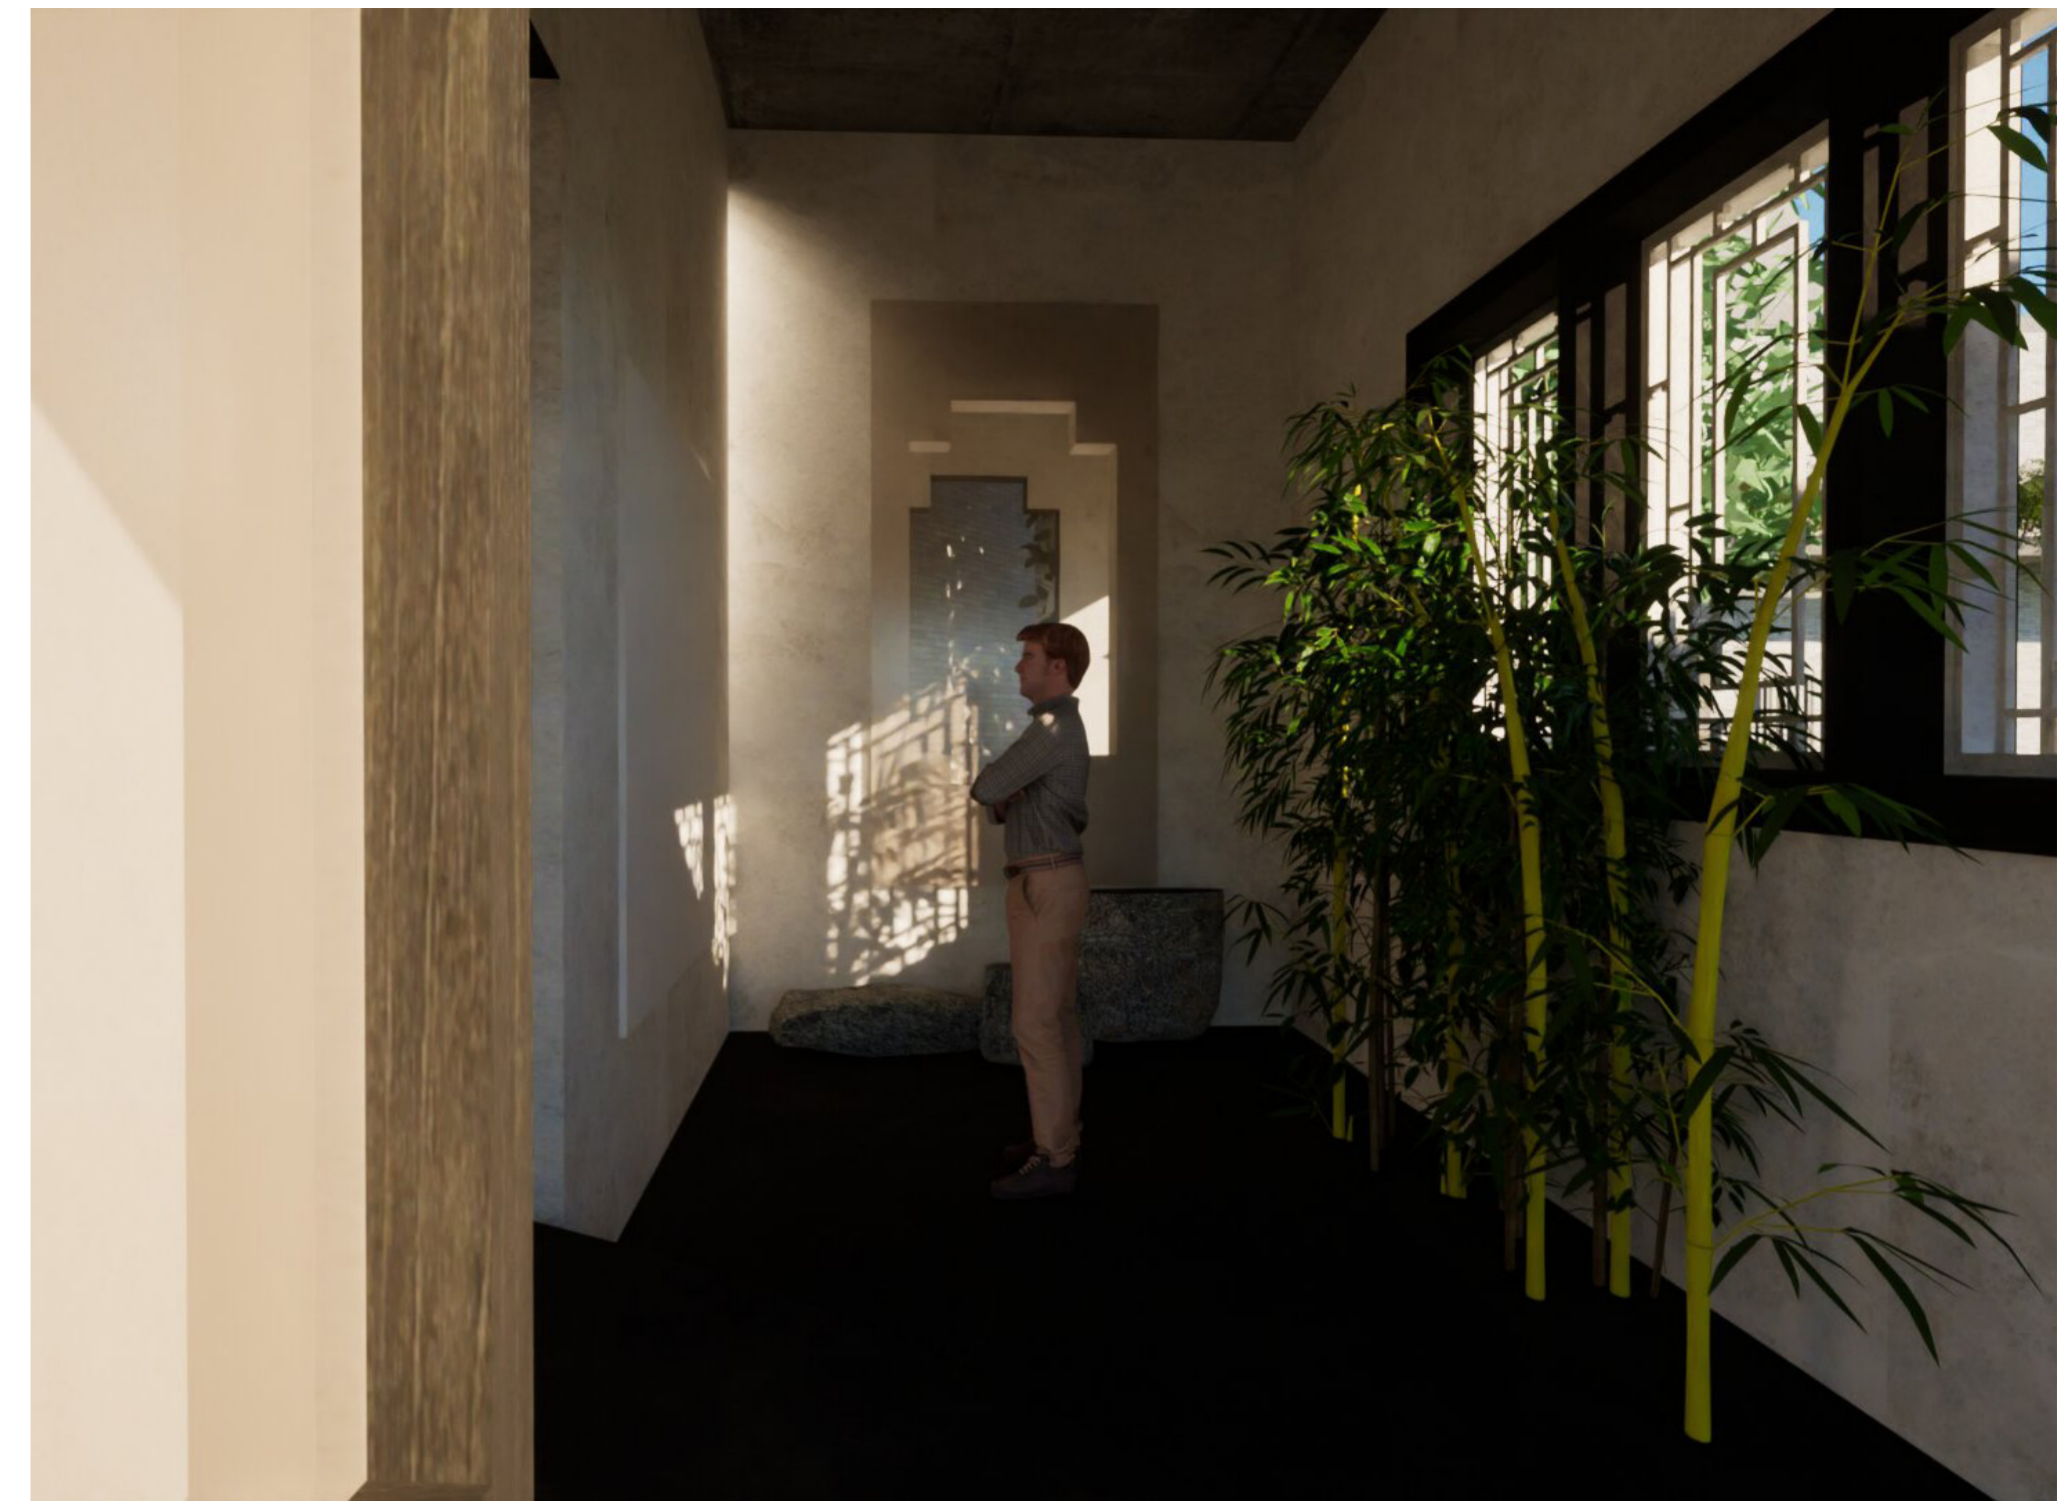

Danni Fan

“Homesickness” is a design project inspired by the idea of memory and space, how a space encapsulates memories and how a space can evoke memories. The Old Kennedy’s Sausage Factory in Peckham, has been maintained on the exterior to protect the identity of the building and history. Whereas the interior of the building has been renovated to maintain some characteristics, but invaded by a new design language.

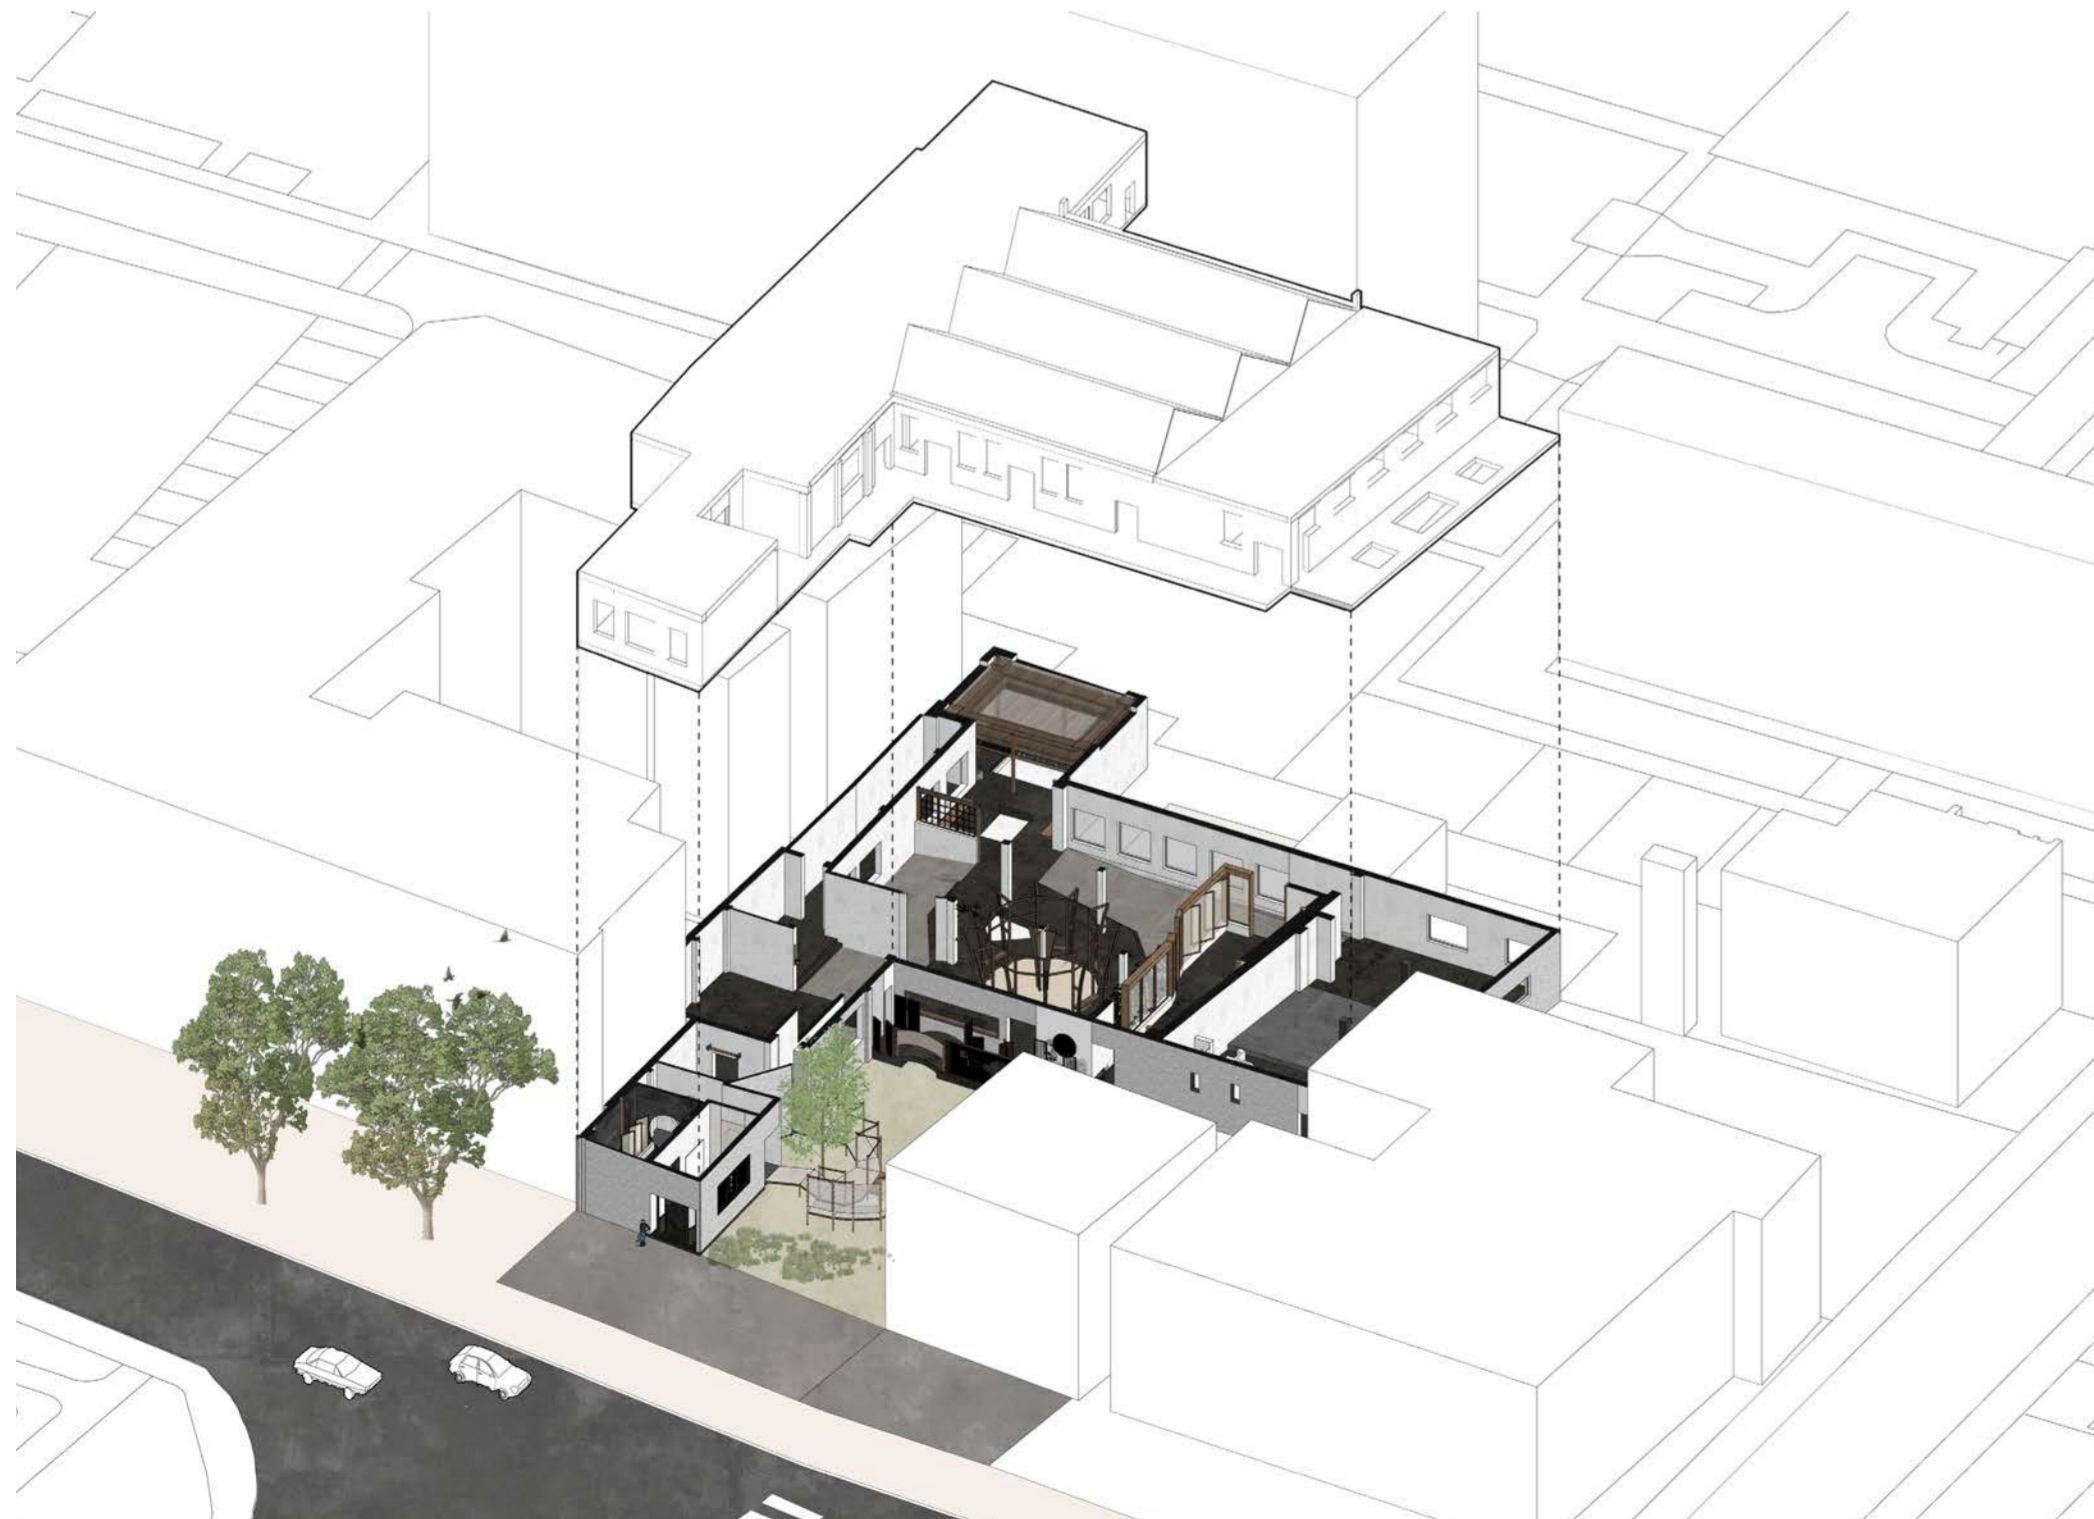

The building encapsulates the emotional journey of longing and belonging. Inspired by London’s diverse community and the rich heritage of China, elements of traditional architecture are intertwined with modernity and the remains of the site. Visitors embark on a sensory voyage through interior gardens, reflecting stages of homesickness and cultural immersion.

Proposed Design Route Through Kennedy's Sausage Factory and Shop
