Design Proposal for DJCAD Club/Bar

Location: Level 3 Matthew Building, 13 Perth Road, Dundee

During the day the space serves as a café / bistro and for gigs and performances during the night.

The Inspiration for the Duncan of Jordanstone College of Art & Design club came from Supergraphics. The boldness, colours and size of supergraphics helped to create a space that is bright and optimistic. Hints of 30's Mondrian and zany 80's graphics provides colourful backdrops to each zone; performance space, bar and seating areas.
